Response to COVID-19

With the current coronavirus (COVID-19) outbreak, nothing is more important than the health and safety of our patients and staff. We are taking every precaution we can to prevent and protect those who are most vulnerable.

Effective Wednesday, March 25th, 2020

We are temporarily limiting our business hours.

**We will be open for limited services Monday – Friday,
10am – 3pm.**

***Burnsville location is open Monday-Thursday,
9am – 3pm.**

We ask that anyone who is symptomatic, traveled in the past 14 days or come in contact with someone who is known to carry the virus, refrain from coming to the office until cleared. This is to protect you, other patients and staff.

We are offering two alternatives to in-clinic Appointments:

Curbside Drop Off - Will be offered during our business hours for hearing device emergencies only. You must call our office **before** you arrive. A staff member will come to you as you wait in your vehicle.

Remote Assistance – Please call our office to schedule a remote care appointment with your provider.

***Please note that this could be subject to change. Please contact our offices with any questions.**
